% **82.2** / 100

High School

Aggarwal Public School

📅 2016 - 2017

CGPA **10** / 10

SELF PROJECTS

Speech Recognition(Personal voice assistant)

🔗 https://github.com/Prachi0203/speechRecognition

A voice assistant which answer your queries like search for google founder, where is delhi,what time is it, etc. I made it using python and google api's.

Automation Of Instagram

🔗 https://github.com/Prachi0203/InstagramAutomation

This is the Project I made using selenium to automate my Instagram which can automatically log in to Instagram and automatically message to the list of users one by one depending on the list.

E-Commerce Website

I made a e-commerce website using django with a pretty interface. Add to cart,categories options availabel.
